Wild Forest Products brings the great taste of truffle to everyday dining

Wild Forest Products is all about great taste, great prices, convenience and consistency.

Wild Forest Products imports the finest olive oil and truffle flavoring from Italy to create its highly regarded and sought after truffle products. Their Italian olive oil blended with their truffle flavor from Italy creates their signature Black & White Truffle Olive Oils.

Using this same flavor along with truffle pieces, they create their great-tasting and aromatic Truffle Honey made with Tupelo Honey. By combining the best sea salt from Sicily with their truffle pieces and flavor, they create their highly preferred Black and White Truffle Sea Salts.

As one of their goals at Wild Forest Prod-

ucts is to bring Truffles into an everyday dining experience, they are constantly adding new products to their line. Some recent additions include their new Truffle Mustard and Porcini Mustard, as well as their new Truffle Mayonnaise, which made its debut at the Summer Fancy Food Show in NYC.

They have received high praise for their imported Balsamic Condimenti from Modena.

They proudly import their Extra Virgin Olive Oil from Apulia. This is an exquisite olive oil, great for cooking and especially as a finishing olive oil. For the porcini lovers,

they have a wonderful Porcini Olive Oil with real porcini pieces. Then there is their garlic-infused pure Italian Olive Oil. They are proud to say that their garlic oil is very strong and bold and tastes like garlic.
